Stability the Keynote
For several days arguments pro and con over the location of an oil station at the corner of Euclid Avenue and Tenth Street have occupied the time and energy of many people, but evidently many have passed over the more serious side of the question and dwell on various issues of lesser importance.

The most important issue to the city and its people is whether or not the city council is going to follow the plan of adopting an ordinance one month and chop it to pieces with amendments the next. Were it a different city council considering the amendment of the ordinance, the condition would not be as serious, but a few weeks ago Councilmen Johnson, Moser, Francisco, Springer and Buffington voted for the ordinance unanimously. If it was the proper thing to do at that time, it is now the proper thing for these men to stand steadfastly behind the ordinance until the higher courts decide that the ordinance is of no value.

City ordinances are the cornerstone on which a city is built and unless the foundation of a city is built on thoroughgoing procedure the future of that city is uncertain. For the same body of men to adopt a zoning ordinance one month and start in amending it the next, especially when the ordinance was in the main originated to eliminate the very thing that the present amendment proposes to permit, is anything but systematic procedure, tending to wreck the confidence of investors as well as the people of the city in the municipality's governing body.

Members of the city council spend a vast amount of time in behalf of the city in which they live and the main remuneration they get is criticism. The writer believes thoroughly in co-operating with the council and assisting them in their work, and is firm in the opinion that for the future welfare of the city the ordinance should be either maintained or eliminated in its entirety, for adopting an ordinance one month and amending it the next when the condition is identical simply weakens the foundation on which the city is built.

Who Wants It?
The question now before the house is: "Do the people of Upland want a states' prison located in their fair city?"

Cost of transportation of prisoners to Polson and San Quentin is proving decidedly expensive as these penal institutions are fully 500 miles from most Southern California points, and the Board of Control has issued an opinion to the effect that a prison should be located somewhere in the south.

Riverside, Santa Ana and a lot of other towns have announced that they don't care for the institution, and evidently most any town can have it by requesting it.

An institution of this sort seems to first give everyone the idea that it's a fine place to keep away from, and the town at which it is located suffers even though the stone walls be many miles from the center of the city.

State institutions of this sort contribute a certain amount of business to the locality in which they are placed but thus far Southern California towns are not enthusiastic in an invitation to state authorities to locate the institution within their confines.

Et Tu Brute
A woman was before a Democratic judge on a charge of insanity and at one point in the examination she shouted: "Yes, sir, Judge, I married beneath me. I married a Democrat."

All of us have Democratic friends who will appreciate the joke.

CONCERT PROGRAM THURSDAY NIGHT

- Director Fred Wilding announces the following program for the weekly band concert to be given on this Thursday evening:
1. March, Thunder and Blazes. Fucik
 2. Grand Selection, Martha. Flotow
 3. Idyl, The Glow Worm. Lincke
 4. Comic Opera, The Mayor of Tokio. Peters
- INTERMISSION
5. March Song, I Love You California. Silverwood
 6. Concert Waltz, Tout Paris. Waldteufel
 7. Ballet Music from William Tell. Rossini
 8. Selection, Isis. Losey
- (By Request)
- Star Spangled Banner

First Steps Toward City Water System

The city council took the first step last night toward calling an election at which the voters of the city will decide whether or not they will issue bonds to the amount of \$224,000.00 with which a Municipal Water System is to be established.

With the growth of the city the development of more water and the improvement and extension of mains becomes an absolute necessity if Upland is to become an ideal residential section.

Development of a city park, the parking of Euclid Avenue, in fact every talked of advance step where water is one of the main requisites must be held in abeyance until more water is developed and a more adequate system of delivery installed.

In the first steps toward the calling of the election the date for has not been set but the proposed amount of bonds to be issued is \$224,000.00.

CHAFFEY GIRLS WILL CAMP AT BIG PINES

Miss Clara L. Bissell secretary of the Girls' Work Organization in the Chaffey district and Miss Katherine Jones, dean of women at Chaffey have just returned from an inspection trip to Big Pines where the camp for all girls clubs of the Chaffey district will be opened from August 21st, to 31st, inclusive.

Miss Bissell secured permission from the supervisors to choose her own location, and the spot taken is ideal. The trip took three hours easy driving, and the road is good. The last sixteen miles the grade increased from 2,900 to 6,800 feet but there are no dangerous places on the way, and very little traffic encountered.

Miss Bissell would like all girls who are planning to go to write her at Claremont, giving name, address and age, the last being quite important. The very latest date that registration can be held open for is August 5th. Two dollars must accompany each registration.

A trained nurse will be in attendance at the camp during the entire time, and mothers may feel perfectly content about the safety of their girls who are enjoying the fun of a ten days vacation spent in the great outdoors. The camp has been named Camp Conifer, and will be a delight to all those girls who can take the trip.

RAYMOND MOREMEN IS ENROUTE HOME

Mr. and Mrs. A. P. Moremen received a postcard on Saturday from their son Raymond, written from Belgrade, Jugoslavia, in which he says he is making all haste to reach home, and is only waiting in each country to get his passport vised.

Mr. and Mrs. Moremen do not know just when to expect their son, but hope he will be here within the next week or ten days. Raymond has been in Asia Minor for the past two years and has had thrilling times, which he will doubtless be glad to exchange for a few quiet months in Upland.

HOT STUFF!
and over steaming tea-cups they sat and gaily talked—"I read that in a story once, you see; But how the dear things did it has got my thinker balked. Unless they wore asbestos lingerie."

HOW TO DO IT
This is the way to write a thoroughly angry business letter: "Sir—My typist, being a lady, cannot take down what I think of you. I, being a gentleman, cannot write it. You, being neither, can guess it all."—Brisbane Daily Mail.

NEW LEMON ASS'N. TO BE DISCUSSED

With the coming into bearing of a vast acreage of lemon groves, local growers are confronted with the problem of where to deliver their fruit, and many growers, especially those in the Cucamonga-Alta Loma district, are of the opinion that a new exclusively lemon association should be formed. To this end the Alta Loma Heights Citrus Association and the Cucamonga Citrus Fruit Growers' Association have called a meeting of growers to be held next Friday, July 27th, at 7:30 p.m., to discuss the various issues and conditions.

A letter mailed to growers is as follows:

July 20th, 1923
Gentlemen,—During the past year the lemon situation in the Alta Loma-Cucamonga section has been the cause of considerable discussion.

Since the freeze of January, 1922, this fruit has been handled in various ways; this past year the lemons from the above associations being packed by the Lemon Growers' Association at Upland. This has been an entirely satisfactory arrangement, due to the light volume following the cold snap.

However, the Upland Association cannot continue this packing indefinitely, and the people of this section must begin to figure on the future and lay plans so that their lemons may be taken care of.

The two associations mentioned above have been working with the Ontario-Cucamonga Fruit Exchange and the Field Department of the California Fruit Growers' Exchange to try and figure out the best possible way to accomplish the desired result, and it seems advisable that steps be taken at this time for the forming of an exclusive lemon association.

The matter has been discussed with the managers and directors of the Alta Loma and Cucamonga houses, together with the managers of the Upland houses who are receiving lemons from this section, and it is the consensus of opinion that such an association should be formed at once. However, it is understood that regular members of Upland associations will not be affected by this proposed organization.

Therefore a meeting has been called for Friday, July 27th, at 7:30 p.m., at the Alta Loma school house, corner Olive and Amethyst.

It is important that a full attendance of lemon growers be had, so that this matter may be fully discussed and plans made to carry on this work.

Several ideas have been submitted, but this letter will not permit the mention of them. Furthermore, it is the desire of those working on this proposition that all interested should have a chance to participate in all discussion and assist in the formulation of the plans.

In order to have a full attendance and obtain a full discussion, each person receiving this letter will help by talking with his neighbor so that this meeting may accomplish as much as possible.

TRAIN HELD HERE ON ACCOUNT OF 'QUAKE'

Santa Fe passenger train entering Upland just as the quake took place Sunday night was held here ten minutes or more until orders from the dispatcher were received to proceed. Many years ago spreading tracks at North Pomona ditched a Santa Fe train following a slight quake and the road was using every precaution Sunday night through this section.

UPLAND'S MAYOR IS PEEVED WHEN HIS ABILITY DOUBTED

Mayor Frank C. Buffington's ability has been impugned.

If anyone should doubt his ability as a mayor; if they should even criticize him severely in his conduct of city business, that wouldn't make him feel badly.

If his friends and neighbors should even lack faith in his ability as an orange grower, that wouldn't make him feel so sorry had either, and even if his closest business associates doubted his conduct as a director of the several corporations of which he is connected, that wouldn't make him feel bad either.

But conditions have been piling up of late.

Recently he was flouted to the world as "The Kissless Mayor." At a city council meeting the mayor stated that there was too much hugging and kissing going on in automobiles for the safety of the motoring public. And from that statement the daily press had Upland's mayor framing an anti-kissing ordinance, and finally national press associations told the nation of Upland's Kissless Mayor.

But the mayor is not disturbed over that.

Something happened the other day that made Mayor Buffington go right out in the Buffington family garden and find the biggest, longest, creepiest, crawlingest fat green worm, and whether he ate it or not, we haven't learned—but if he ate, we don't blame him one bit.

An item appearing in The Upland News the other day stated that the Mayor and his family, together with some neighbors, went fishing—and that they didn't have any luck—and they fished at the Rainbow Angling Club above Redlands, where there are so many fish that you can pick them out of the water with your hands, or even catch them on a bent pin without any bait.

If the Mayor had gone stream or lake fishing with little result it wouldn't have hurt quite so much, but to go to the Rainbow Angling Club fishing and then have a newspaper with less than a million circulation proclaim to the world that the Mayor of the town had returned home without even the smell of fish would make even a long-suffering Mayor throw his hands in the air and shout from the house-tops, "Et Tute Brute, Mein Gott in Himmel, was noch."

A note from the Mayor states as follows:

July 21st, 1923
Upland News,
Upland, Calif.

Dear Mr. Westland,—I notice by your paper of July 20th that F. C. Buffington and family, accompanied by Mrs. Moser, motored to the Rainbow Angling Club on Wednesday and spent some time fishing, without any satisfactory results, however.

Now, Mr. Editor, I have no desire to see my name in print when I go gunning or fishing, and don't know where you got this bit of misinformation; but it is not fair to the Rainbow Angling Club or to me to allow the above item to go uncorrected.

I caught limits of trout in San Antonio Canyon before Upland was on the map. As for this angling club above Redlands, they have thousands of hungry brook trout in their cold mountain stream of clean water just eager to swallow the bait that is offered them, and the fellow who cannot catch fish there "just ought to go off somewhere and die."

We caught all we wanted for a family of five for two meals. One can endure the unearliest misnomer of "Upland's Kissless Mayor" in silence, but when it comes to fishing—well, that's a little different.

Yours Truly,
F. C. BUFFINGTON

WILLIAM FARNUM AT COLONIAL HERE

Drama and William Farnum—There is a combination that becomes stronger with every picture in which the Fox star appears. His latest, "Brass Commandments" will be shown at the Colonial theatre for two nights, starting Wednesday. It is a story of the West, done in the breezy style of Charles Alden Seltzer, popular for his narratives of outdoor action. To make a good thing better Tom Sautschi, who held such a memorable conflict with Farnum in the "Spoilers," gives the Fox star an equally historical battle in this play.

There are two girls in the story. Wanda Hawley plays a capable feminine lead opposite Farnum and Claire Adams comes in for her share of honors. There is action, tons of it; the story retains interest by its dramatic tenacity; the romantic skein is well woven through the tale and the

PROPERTY OWNERS PLACE OBJECTIONS BEFORE COUNCIL

Entirely lacking in heated discussion and resolving itself into the simple reading of the proposed amendment to the famous zoning ordinance, last night's council meeting was devoid of excitement.

Twenty-five Euclid Avenue property owners attended the council meeting and following the first reading of the amendment to the ordinance, Mayor Buffington called on the property owners to present their arguments for and against the oil station planned for the northeast corner of Euclid Avenue and Tenth Street.

G. A. Hanson was spokesman for the property owners, simply stating the objections they had to the station. Mr. Hanson stated that it was the desire of Euclid Avenue property owners and of many people throughout the city to make Euclid Avenue an ideal residential section and the placing of a service station here simply opened the way to mar the effect.

L. A. Weller, who has just completed a fine home on Euclid, stated that he built his home there believing that Euclid Avenue would become an ideal residential section. Mr. Weller also pointed out that the service station was not necessary, that within two blocks of that point motorists could obtain their needs and there was no object in making Euclid and Tenth another dangerous corner, as it was bound to become if a station was placed there.

R. H. Henderson spoke along the line of making Euclid the beauty spot of the city and that he believed the public would be equally well served if gas stations and business houses generally were eliminated just as the zoning ordinance stipulated.

Chas. V. Barr spoke of talking with a Union Oil Company official to whom J. F. Monroe hopes to lease his property, and stated that the official had said that the Union Oil Company did not care to be a party to any wrangle in locating its stations and had about eliminated the idea of locating its station at the corner of Euclid and Tenth Street.

Although J. F. Monroes was with his attorney, Archie D. Mitchell of Ontario, neither he nor Attorney Mitchell offered any arguments in behalf of the station.

The second reading of the amendment to the ordinance, after which it is either passed or eliminated, occurs at the next meeting of the council, which takes place on the second Monday in August.

The amendment to the ordinance is as follows:

Section 1.—Section 2 of Ordinance No. 184, entitled "An Ordinance Creating Residence Zones in the City of Upland and Regulating the Purpose for Which Buildings, Structures or Premises May Be Erected, Constructed or Maintained, and Prohibiting the Establishment or Maintenance of Businesses or Industries in Said Zone," is hereby amended to read as follows:

Residence Zone No. 1 shall be comprised of all that portion of the City of Upland bounded and particularly described as follows: Commencing at a point in the north line of Ninth Street 150 feet east of the east line of Euclid Avenue; thence north to the south line of Tenth Street; thence west to the east line of Euclid Avenue; thence east to a point in the east line of said Euclid Avenue 50 feet north of the north line of Tenth Street; thence east 150 feet; thence north on a line parallel to and 150 feet east of the east line of Euclid Avenue to the center line of Twenty-Fourth Street; thence west along the center line of Twenty-Fourth Street to a point 150 feet west of the west line of Euclid Avenue; thence south along a line parallel to and 150 feet west of the west line of Euclid Avenue to the center line of Tenth Street; thence east along the center line of Tenth Street to the center line of Euclid Avenue; thence south to the north line of Ninth Street; thence east along the north line of Ninth Street to the point of beginning.

Section 2.—This Ordinance shall take effect and be in force from and after thirty days after its adoption and approval.

climax thunders with power. This is the opinion of critics who saw the film before its release to the general public. The people of Upland will be able to judge for themselves.

In addition to being healthful exercise, walking makes it unnecessary to waste time at filling stations.

Quake Rocks City No Serious Damage

Centering in the cities of San Bernardino, Redlands, Colton, Highland and Patton, one of the most severe earthquakes since Hemet and San Jacinto were raised in 1918, struck this section Sunday night at 11:28 and created widespread terror.

In Upland there was little, if any, material damage and although the earth rocked, houses creaked, idishes rattled and in some cases pictures and other articles fell to the floor no one was injured and no serious damage done.

Thousands of people fled to the streets in scant apparel and many slept out of doors the remainder of the night for fear another severe shock would come. Two lighter shocks followed the first but they were not severe. The duration of the first shock was probably 10 or 12 seconds, but it seemed like a minute or more.

A distinct roar accompanied the quake and at many points clouds of dust filled the air.

Patients at Patton Thrown Into Panic
Patients at the Southern California State Hospital at Patton were thrown into a panic by the shock which was felt there at 11:30 o'clock.

The huge three-story main building developed severe cracks. Bricks and plaster fell in wards 6, 7, 8 and 10 on the right wing. Waterpipes in ward 7 burst and added to the confusion.

Lights went out for a time and added to the horror as patients screamed and called for mercy. Dr. Edwin Wayte, assistant superintendent, who is in charge during Dr. J. A. Reilly's absence, reported after a rapid examination that the damage did not appear to be serious.

The storeroom and engine house appeared to be the only building injured aside from the main structure. The roofs on both were partially caved in, caused by the falling away of parts of the side walls.

There were 2,352 patients at Patton and none was injured, Dr. Wayte said.

Hall of Records Suffers Worst Damage

The building suffering the worst damage seemed to be the Hall of Records, San Bernardino which lost 12 feet of cornice on the east side and a portion of the chimney on the west. A few bricks fell from the old court house. The damage to the building did not appear to be serious.

Bricks fell through the ceiling at the Widmeyer Confection Store at Court and D Streets.

Plate glass was broken at McNerny's Dry Goods Store, Bradley Confectionery, and the Oldsmobile Agency in San Bernardino. Many other large plate glass windows throughout San Bernardino were cracked.

The shock set on the burglar alarm at the Farmers Exchange National Bank at Third and E Streets, San Bernardino which rang continuously for several minutes and was only stopped when officials of the institution came and turned it off.

Damage Totals \$3,000.00 At General Hospital

General Hospital, much plaster shaken down and windows broken. Frank McCabe, cost accountant of the institution, said the damage would not exceed \$3,000. The principal damage was on the second floor. The stairway was filled with plaster. Officials and attendants quieted the 200 patients, a number of whom became hysterical. No one was injured.

Santa Fe Shops Also Damaged

Santa Fe shops, about 3,000 bricks were shaken out of the south end of the old machine shop. These bricks were hurled over two tracks. There was similar damage on the north end. The bricks were shaken out from the roof for a distance of about five feet down. Plaster in the storehouse was knocked off, and a vast quantity of stores thrown to the floor. The depot building rocked at a terrific rate and walls were cracked on the second floor and on the third floor.

At Redlands

Redlands was severely shaken by the earthquake, a number of clocks stopping at 1:31, indicating that the tremors took place at that time. A survey of the downtown district where the damage seems to have been confined, shows one roof fell in, several cornices and fronts of buildings crashed, and plate glass to the value of several thousand dollars broken.

The greatest damage is confined to the store of Serling & Corner, furniture dealers, on West State Street. The roof over the west third of this store caved in, crashing into the plateglass window and covering a part of the stock of goods. Plate glass at the Harris Company store, East State Street; the Chandler Furniture Company, State and Fifth Streets; Dr. Campbell's optical store, and at several other places was broken.

A part of the wall of the Allen Wheaton Building, State and Sixth Streets, crashed, and the brick coping over the Maynard livery stable, Orange Street, fell.

Gowland Suffers Great Losses
The Gowland Building, State and Fifth Street, also suffered from loss of glass and has a large bulge in the upper front wall. Merchandise was tumbled from shelves in many places of business.

At the Doell & Doell cigar store a salesman was back of the counter at the time of the quake. Several bottles that were used for display, on the top of a case above him, fell, narrowly missing his head.

Hotels, rooming houses and other buildings that housed families, were hurriedly emptied at the climax of the quake. Two hours afterward many of these persons were sitting at the curb, fearing another tremor.

One woman described her sensation: "I was just getting ready for bed," she said. "The room was dark and my husband was asleep. I heard a great noise back of me, all around me; it was just like some big man was chasing me, and was dragging a bag filled with bottles, cans and old iron."

"I called 'My God, Jim, I'm dead!'" "And I really thought I was," I couldn't breathe. The air seemed choking and the house was rocking."

Sues Building is Cracked
The Sues building has a large crack down the center.

The Odd Fellows building is cracked.

ed. Plaster was shaken from the ceilings.

Gowland building is believed to be leaning about two inches out of line, to the rear.

The damage to the Serling & Corner building was caused by the falling of about four feet of the fire wall from the Studebaker building.

The plate glass in the Columbia building was badly shattered.

The building of the Southwestern Home Telephone Company was cracked.

Quaking Here and There
Peculiar things happened following the quake of Sunday night:

L. Strawn near whose home the Santa Fe has a spur track, rushed from his bed into the doorway shouting: "Stop it! Stop it!" Mr. Strawn was sound asleep and in his dreams during the first quake he imagined a switch engine had jumped from the tracks and was plowing through his home.

Jas. Paulin found himself screaming and when his neighbors asked him why he screamed the best excuse he could think of was that he was afraid the quake would frighten his wife.

Many evidently felt like the colored man who said: "In a train wreck, where you are, but when a boat sinks, where are you?"

A man driving a Ford car through Ontario found himself over against the curb, and deciding that his car must be wrecked went in search of a garage. As he entered a restaurant to inquire where he could find a garage he heard earthquake conversation. Returning to his car he found it in perfect working order.

R. B. Bordwell, who was reading in bed, thought for a minute that he had started the entire quake. Tiring of reading, Mr. Bordwell pulled the light cord and just as the light went out the bed began to rock followed by a roar. Reaching for the cord he wildly waved his hand about his head in search of it, and when he finally found it the quake was over and "pandemonium" reigned throughout the household.

Although motorists found many slides of stones and earth on the Waterman Canyon road to Lake Arrowhead, in but two places were there slides on the Camp Baldy road, and those were very small.

A San Bernardino man was cranked.

TUESDAY, JULY 24, 1923.

What Makes Californiacs?

THE "Californiac" may not be a Californian at all. He is an "ac" that considers all perfection to dwell in the Golden State. There is no reasoning with him. He is beyond cure. We like his song, but occasionally we get surfeited with self-praise. In those moments when overcome with frankness we look on the other side of the picture and ask why Californians are different from average folks in some respects which are not wholly to their credit? It is a severe trial to the "Californiac" to be told of shortcomings, but an honest confession is good for the soul.

A well-known San Francisco minister in a recent sermon ascribed some of our dominant moral shortcomings to the effect of an overly stimulating climate. It is a fact that our climate is so kindly that it does not give people much to think about in the way of resisting the devil. Now then, a country where the people get sunstroke in summer and frozen feet in winter has a constant reminder of the uncertainties of life very conducive to meditation upon the moralities. "A reasonable number of fleas is good for a dog," say David Harum, "just to keep him from forgetting that he is a dog."

California is notably abnormal with respect to things political. Not only is it often surprising in action, but it is notably critical and fault-finding. Perhaps Senator Johnson reckons on this trait when he espouses causes at variance with the best judgment of a majority of the people. Years ago Grover Cleveland called this the knocker state and said that he seldom made an appointment here that did not elicit a thousand protests. The same disposition has been noted by many others. Instead of co-operating cheerfully together we pull vigorously apart. We become provincial, self-centered and hypercritical, slow to see the good in our neighbors. The Southern part of the state, with its large influx of people from the Middle West, that notable testing ground for liberal ideas, is less troubled with this foreshortening of moral perspective.

There is scarcely any dispute, in circles frank enough to discuss the matter without gloves, that we are lacking in those amiable qualities which make for harmony and working together. It is too much of "every fellow for himself and devil take the hindmost." That is never good policy for community advancement.—San Francisco Journal.

The One Virtue

JUDGE LINDSEY is like a man at the battlefield. Only a few things count, and life for him is stripped of all conventions and shams. Speaking of the new work in Colorado which aims to befriend girl mothers by treating them like human beings instead of outcasts, he says:

"That word 'morality' has been used to cover its multitude of sins. The world has been hysterical over the morality of women. It has done little, comparatively, for justice, health and beauty for women. You would think from the conventional, hypocritical attitude taken that women only had one virtue worth while—a virtue upon which we should properly place a very high estimate.

"So much emphasis has been placed upon 'the one' virtue that the importance of others has been lost to view. Many girls who have lost 'the one' but are still better than half the men are also better than many women who have only 'the one.'—Stockton Record

The Gentle Art of Telephoning

NEW modern inventions have added so much to our daily convenience and comfort as the telephone. Yet it is susceptible of abuse, and unhappily all too often it is changed from an instrument of assistance into a device of discourtesy and unkindness. We are all too familiar with the situation decried by J. M. Keynes, the well-known English economist, who wrote recently:

At no time during the day can I rely on a quarter of an hour's uninterrupted work. Any unconcentrated person who finds it easier to ring up than send a post card, any hostess making up her party, any tourist who thinks he would like a few words with me, is entitled by the existing conventions, and is able, suddenly and at any hour, to interrupt my business and make me attend to theirs.

Mr. Keynes has a remedy for these telephonic disasters and one that we could wish every user of the telephone would adopt:

I suggest that to ring up a private house, in any case in which a post card or a letter would do equally well, should be thought inconsiderate; that a stranger should have no more right to use the telephone of a private house than to open the front door; and, above all, that it should be bad manners, except among intimate friends, to issue an invitation on the telephone, which gives the guest no time, without apparent rudeness on his part, to consider whether he is really free or whether he wants to accept.

Mr. Keynes calls this "a new and improved code of manners," and so it would indeed prove.—Woman's Home Companion.

Richardson Gives Schools Increase of \$6,000,000

GOVERNOR RICHARDSON caused to be appropriated nearly \$6,000,000 more for education than during the last two years. The fact was pointed out, not with a view to defending Governor Richardson, but the State of California.

In a recent issue of the San Francisco Bulletin the figures are emphasized graphically in a cartoon which shows that more than 60 per cent of the appropriations during the session of the legislature recently closed was for education.

The figures are very interesting, showing as they do how California is supporting its educational institutions:

Appropriations under Governor Stephens for the University, \$6,031,949; under Governor Richardson, \$6,596,696. Increase \$564,747.00.

For elementary schools under Stephens, \$5,606,184; under Richardson, \$7,813,740. Increase \$3,236,912.

For secondary schools under Stephens, \$26,211,208; under Richardson, \$29,448,120. Increase \$3,236,912.

Total increase, \$5,622,115.

Comments on these figures are that they will open the eyes of the visiting educators and show how handsomely California is providing for its schools and colleges.—Watsonville Register.

FAMILIAR POEMS

POETRY

If there be immortality of love
Beyond the wane of spring, the
summer's going.
In the autumnal hinterland of death
I shall be knowing
As I know now, the timbre of your
voice.

Like music flowing,
I shall remember you as now you
stand.

With pale hair blowing
Against the childish crescent of
your cheek,
Your color showing
The vivid stress of wind—and deep-
ly blue.

Wild asters sowing
The hilltop at your feet, like fallen
stars,
Rooted and growing.

I shall remember you with lifted
head
And quick hands throwing
A cape back from your shoulders
for the sun,
And gray eyes glowing,
And this recaptured radiance of you,
Its warmth bestowing,
Shall light the lonely hinterland of
death.

Past all your knowing,
If there be immortality of love,
Beyond the wane of spring, the
summer's going.

—Agnes Kendrick Gray

THE OLD MUSICIAN AND HIS HARP

Years have come and passed away,
Golden locks have turned to gray;
Golden ringlets once so fair,
Time has changed to silvery hair;
Yes, I've neared the riverside,
Soon I'll launch upon its tide,
Soon my boat with noiseless oar,
Safe will pass to you bright shore.

Bring my harp to me again,
Let me sing a gentle strain;
Let me hear its chords once more,
Ere I reach the other shore.

Oh, those chords with magic power,
Take me back to childhood's hour;
To the cot beside the sea,
Where I knelt at mother's knee;
But that mother, she is gone,
Calm she sleeps beneath a stone;
While I wander here alone,
Sighing for a better home.

Where is now that happy group,
Once so full of joy and hope,
Happy voices full of glee,
None are here to speak to me;
All alone upon the stream,
Olden days seem but a dream;
Soon I'll meet the loved ones gone,
Soon again we'll meet at home.

Father's counsels, mother's prayers,
Round their children everywhere;
In my dreams I hear them yet;
Lonely hearts cannot forget,
Parents, brothers, sisters, too,
All were called and had to go;
I alone am here today,
Dear old home has passed away.

Soon I'll be among the blest,
Where the weary are at rest,
Soon I'll tread the golden shore,
Singing praises evermore,
Now my boat upon the stream,
I can see its waters gleam,
Soon I'll be where angels roam,
Dear old harp, I'm going home.

Now my toils of life are passed,
I am safe at home at last;
Now my journey is complete,
I am singing music sweet,
Oh, these angels how they sing
Praises to Our Heavenly King,
And I catch the sweetest song—
Dear old harp, I'm safe at home.

My dear old harp I'll need no more,
I am safe on the golden shore;
I am singing music sweet
As I tread the golden street.

ODDS and ENDS

SHIPS and SHIPMENTS

Little Johnny was seeking information from his father.

"Father," he asked, "freight is goods that are sent by water or land, isn't it?"

"That's right, son."

"Well, then, why is it that the freight that goes by ship is called a cargo, and when it goes by car it is called a shipment?"

And then Johnny wondered why father put on his hat and sauntered outside to get the air.—Everybody's Magazine.

A MATTER OF SPELLING

"Bill," said a sailor looking up from his writing, "do you spell 'sense' with a 'c' or an 's'?"

"That depends," replied his friend. "Do you refer to cents, meaning money, or sense, meaning brains?"

"Aw, I don't mean either of them two," was the reply. "What I want to say is 'I ain't seen him sense.'"

—Santa Fe Mag.

OF COURSE

Newlywed was on his honeymoon, and as he had married a very pretty girl he lost no chance of telling everybody with whom he came in contact that he was a married man.

"I want rooms," he announced, as he approached the hotel reception clerk, trying to appear as nonchalant as possible.

"Certainly, sir," said the clerk. "For how many?"

"For myself and wife," replied Newlywed.

"Yes, sir," said the clerk. "Suite, sir?"

"Sweet!" cried Newlywed. "Of course she is."—Tid-Bits.

NEW INTERPRETATION

Pat's boss had been a "mule driver" when it came to handling men.

Upon the boss's death the company flag was flown at half mast.

"What's that flag in the middle of the pole for?" asked Mike of his friend, Pat.

"Faith," said he, "they'll haul it up or down when they find what direction he's going."—Mass. Ag. Squib.

THE ONE PIECE FROCK-

for Summer

By Barbara Winston

IT MAY BE EMBROIDERED OR MADE OF TWO FABRICS

THE SHIRT PRETENDS CROCHET—THE WAIST A FRILL

THE PRINTED FROCK FINDS A RIVAL IN THE PLAIN

A PLAIN MATERIAL WITH EMBROIDERY AND RIBBON

There Are Trim Little Morning Cowns of Practical, Dainty Fabrics—Afternoon Frocks Lovely Enough To Steal An Hour from the Early Evening.

ONE cannot help wondering who thought them all out—the clever, novel, piquant models that one sees everywhere, the stunningly smart, yet withal puzzlingly simple, modes for summer. If we recognize many of the old fashions of late winter and spring, there's a bevy of refreshingly new and exclusive styles, authentic in line, trimming and fabric—for never were offerings so various. One's summing up of the one piece frock mode will be, at the best, only sketchily done, since no one rule applies generally, but may be quite individual with the particular frock one is describing.

If the gowns of the present season make for a feeling of bewilderment, that bewilderment is a happy one, since the looms of weavers and the efforts of designers have combined to secure a decorative, though perhaps a bit dramatic picturesqueness. And the best liked models have a certain youthfulness that is not only acceptable, but becoming. Every woman inherits a love of clothes, and a love of color, though she may confine herself to somber shades and simple models for reasons of economy. To the woman who loves bright things, yet practically avoids impractical shades, the unique touches of brilliancy in embroidery and trimmings are especially acceptable.

The Mode May Be Individualized To Type

Many influences have been at work in determining the mode—if one could call so variable a thing "determined"—and that is why one has a choice so wide that some style is sure to be becoming. And other lands and other days are present in the whimsical silhouette that may suggest the wired skirt and quaint bolero, out of Spain; the mid-Victorian crinoline; the puffed hip-line we trace to old New England, or the Persian, Egyptian, generally Eastern slimness of line.

The frocks of summer, more than any other season, are the frocks of charm for the materials that fashion them are especially in the hands of the designer, and some of the fabrics are so lovely in themselves that it is a task akin to the gliding of the lily to conceive garnitures for their adornment. The vogue for color—which includes the dainty, as well as the vivid shades—makes a satisfying variety from which to choose, and by the use of carefully thought out combinations real novelty may be obtained. In these color combinations, there is no limit to the daring of designers, and it would almost seem that new colors are being daily introduced, for no other reason than to make such combinations possible.

We used to speak of blue and white, or black and white, or tan and navy blue, and "dainty" combinations of blue and green. But now, rich blues—the French and peacock and Persian shades—are artfully designed with dashing greens and reds and purples, and the more vivid tones of the pastel colorings are shamelessly thrown together and accepted without a murmur. The people who buy, as well as the people who design and sell, consider them most desirable and artistic, and it would seem that for summer wear—especially in the outdoors—no combination is too striking.

Styles As Varied As Fabrics And Colors

As to the style of these one-piece frocks for summer—they're a little bit of everything, perhaps not a very great amount of anything, definitely. The newest models are a matter of ruffles, tucks and draperies; lace, veils and ribbons; bows, halloes and tunics, apron fashion; the

trifle of a binding in contrasting color or clever applique; or they're just lines—as the fabric itself is decorative.

The pictured frocks, it will be noticed, include a printed material, and an all-over embroidered material, both straightline models; three of the others have adopted a combination of fabrics, and the other two content themselves with simple trimmings, applied to a material in solid color. The printed frock is typical of the vogue for prints, which still holds a large measure of its early popularity, though fashion prophets foretell its downfall as a leader in the dress mode. A narrow piping, in solid color, is its only trimming, and one notices the normal waist line and the kimono sleeve that has width at the elbow. It is a decorative frock by virtue of its fabric.

And would have many uses in the summer wardrobe. Indeed no summer wardrobe will be quite complete without one frock of printed material.

The little dress shown with this model is an excellent example of the simple, practical porch or street model, quite dressy enough for the latter without being too dressy—for the former. Its trimming is clever—consisting of flat embroidered bands, a narrow tie at the neck and a matching band of the plain material and embroidery at the sleeve edge. One feature appears on many of the finest straight line frocks, and that is

the fullness over the hips, which does away with any possible tightness across the back. The belt is a braided affair that matches the tie.

Embroideries, Lace And Applique Are Favorites.

The vogue for all-over embroidery gives us the fetching little frock of crepe, and it is wholly to the pattern of the embroidery that the frock owes its charm. Plain fabric edges the sleeves and makes the collar and string belt, and the lines are as straight as lines could possibly be. All-over embroidery of a different sort—and a more familiar type—combines

not detract from its fresh charm. The trimming over the hips is unusual—suggestive of panniers—and most effective. The two frocks score two for embroidery, and the white frock makes the first score for fabric combinations.

Straight lines, solid color and the use of coarse lace in combination with a novelty fabric of crepe weave are the high lights of the inclined-to-be-tailored frock that is making friends with the all-over embroidered gown. Note the high, uneven line of the skirt at the waist—one wonders if the designer first considered a high-waisted frock, then changed her mind! An irregular line on the side seam makes possible the use of two buttons covered with the fabric. All-over lace, that range from the finest to the coarsest, and may be cotton, silk or wool, are being generally featured, and just now the idea seems to be the wearing of white and ecru lace over dresses and colored slips, matching the wide sash to the slip.

Again a combination of materials—light and dark—embroidered edging and applique—the latter done in crochet—are responsible for an unusual and charming model. Such a frock may be prophetic of the return of the waist and skirt and again it may not—one never can tell. At any rate it is unusual, the combining of dark and light—the light ends to the dark sash are clever—the narrow piping down the front and around the sleeve and neck edge; and the dainty embroidered frill that finishes the waist. Crochet assumes a place of importance in the trimming world by its introduction as an applique, and the woman who is skilled in this form of fancy work may have a maximum of trimming motifs at a minimum of expense.

The Modes Assure Dainty And Unusual Charm

Embroidery, this time in circular motifs and narrow lines of fancy ribbon against a plain background, assure the success of the frock with full skirt and waist. The fullness does not detract from the slowness, and is typical of a mode that has much to offer in the way of variety. Milady may have her choice of many fabrics, trimmings and modes—what would you then? Would you be garbed in the style of a Velasquez

with plain material to make the quaint little white dress that is really perfection—practical perfection—for summer wear. The straight line waist and full skirt offer no terrors to the laundress, and repeated tubbings will

Ribbon Is The Firm Foundation On Which The Fashion Of Fabric Flowers Is Built. Four Ways Of Using It.

Every type of ribbon known to womanhood has its place in the scheme of things, and when they do not wholly fashion the hat, they will trim it, and play an important part in the decoration of frocks, suits and wraps. We do well to honor the fabric that is, in itself, a symbol of honor, when attached to a bit of metal that bears the seal of a government, and stands for duty bravely done.

organza cap for the correctly uniformed house maid; two inch satin ribbon, edged with narrow Val lace, makes the necessary lingerie strap to hold underwear in tidy piles in the dresser drawer—it has a buckle to regulate the length.

Two thicknesses of ribbon will replace the worn umbrella strap; ribbon will trim the plain parasol—as in the illustration; wide ribbon will blanket the family dog, and his blanket of ribbon will be tied on with ribbons. And ribbon will cover boxes, make bags, purses and card cases, and clever satchets. A new idea is to hide a tiny

one side and extends to the cabochon on the other, while showers of ribbon in various colors, or the same tone, hang down to the hem of the dress, assuring that touch of smartness that so frequently is the reason of a real "model" gown.

Ribbons may be woven into pillow covers—both sides woven or one side of silk, and ribbons make possible the renovation of old pillows by serving as bindings for worn edges or as trimming across the front of the cover. The narrower widths are used as lamp pulls, the color matching or harmonizing with the fittings of the room; ribbon rosettes, bows or formal designs make dainty tie-backs for curtains; and quite often ribbons edge the curtains themselves.

The boudoir bandeau is a dainty accessory—quite new, very popular, and amazingly easy to design. It may tie at the back, and at the sides or swirl twice about the head, tying in front, or—if one inclines to simple things—it may be an unusually attractive piece of ribbon that ties in the back, and have no ornamentation whatever. Some of the most attractive boudoir bandeaux are made of lace—filled or fluted—and trimmed with ribbon flowers. Such a bandeau would have ribbon ties. This new accessory is most becoming and holds the hair firmly in place.

A new camisole ribbon has room for a draw string at both top and bottom, needing only the draw strings and shoulder straps to complete it; the ribbon bow is taking the place of the

Society

JOYFUL REUNION AT LONG BEACH—

A very enjoyable reunion of relatives took place on Sunday when some thirty-five members of the Woolpert family gathered at Long Beach for a picnic dinner and general happy time. The guest of the occasion was Miss Helen Woolpert, who has been visiting in Long Beach and returns soon to her home in Kansas.

Dinner was enjoyed at the pavilion and the afternoon spent in renewing old acquaintances, several of those present not having met for years.

Among those present were: Mr. and Mrs. T. E. Ketcheson, Mr. and Mrs. J. F. Anderson, Misses Winona and Betty Anderson, Mr. and Mrs. Charles E. Anderson and daughter, Marie, Mr. and Mrs. George Bruce Bower, Mr. and Mrs. Ray V. Woolpert and daughter, Velma; Mrs. H. M. Bailey, Long Beach; W. Vance Woolpert, Compton; H. E. Spurlock, Mr. and Mrs. Charles Care, Miss Christine Sailing, Earl Woolpert, William Mauck, Jr., Mrs. Lena Wood, part Mauck and daughter, Wanda Louise, Long Beach; Mr. and Mrs. C. W. Currie, Violet, Paul, Howard and Alvin Currie; Mr. and Mrs. W. V. Woolpert and children, Glenn and Lois, Sierra Madre.

LADIES' DAY AT RED HILL CLUB—

With no golf tournament on the local course at the regular Ladies' Day monthly meeting at the Red Hill Country Club, last Friday afternoon was given over entirely to a sociable bridge tea at The Sycamores.

Some sixty lady members and guests enjoyed the affair. The lobby and east dining room were made very attractive with baskets of flowers, and tea was served from tables decorated in yellow and with yellow candles.

Mrs. Harlow S. Wilson made high score at the bridge tables, the prize being a generous credit to the Victoria fund. The winner at each table was also credited with a certain percentage of the contributions toward the fund.

A brief musical, with Ord Toomey vocal solo, little Miss Margaret Morris in a group of pretty songs, and Miss Mildred Milliken in piano selection, was the entertaining feature during the tea service.

Mrs. George Tracy Morris was hostess of the afternoon, assisted by Mrs. Charles Motsinger, Miss Marian Belden and others of the Cucamonga Alta Loma committee.

EASTERN VISITORS ENTERTAINED—

Mr. and Mrs. George L. Winter were hosts on Sunday at their home on East Ninth Street to Miss Amelia Clanton of Philadelphia and Mrs. Hudson, formerly of that city, but now a resident of Los Angeles. Miss Clanton was on her return journey

after attending the National Convention of Business and Professional Woman's Clubs, held at Portland, Oregon, where she went as a delegate at large from Pennsylvania.

She mentioned several interesting facts about the convention, which Mrs. Winter, as president of the local Business and Professional Woman's Club, took special note of.

The membership of the National Organization has now reached 40,000, and at the convention there were one thousand delegates and guests. The two principal speakers were Senator William E. Borah of Idaho and Judge Florence Allen, member of the state supreme court of Ohio, the only woman holding that position. For the coming year the National Association has elected Miss Adella Prichard as president.

Miss Clanton is a woman of charming personality, and her visit was greatly enjoyed by Mr. and Mrs. Winter.

MOREMAN—COTA WEDDING AT OJAI—

A pretty garden wedding took place on Tuesday afternoon, July 17th, in the grounds at the home of Mr. and Mrs. J. Cota, Ojai, Ventura County, when their daughter, Abbie, became the bride of Merrill H. Moreman, son of Mr. and Mrs. A. P. Moreman of this city.

The young couple stood at an improvised altar of flowers and ferns under lovely shade trees, and the ring ceremony was performed by the Rev. Marsh, pastor of the Ojai Presbyterian Church. The bride was attended by her sister, Mrs. H. Betz, as matron of honor, and a little niece acted as flower girl. Austin Buckley of San Jacinto was best man.

Fifty guests witnessed the pretty affair, and following the service, a wedding supper was served. Mr. and Mrs. Merrill Moreman left on their honeymoon, which they are spending at Hermosa Beach, and they will stay with the groom's parents for a few days before going north to Walla Walla, Washington, where Mr. Moreman is manager of an apple-packing house.

Attending the wedding from here were Mr. and Mrs. A. P. Moreman, Miss Geneva Moreman, Miss Marguerite Moreman and Mr. and Mrs. A. H. Buckley and children of San Jacinto.

FORMER UPLAND GIRL MARRIED IN LONG BEACH—

Marriage of Miss Mary Irene Dillman, daughter of E. M. Dillman, 753 Stanley Avenue, Long Beach, to Gus O. Wagner of that city will be received with great interest by the many Upland friends of the Dillman family.

The ceremony took place on Wednesday, July 18th, in the new home of the young couple, 770 Junipero Avenue, Long Beach, the Rev. Geo.

M. Hourke of the First Presbyterian Church officiating. Only relatives were present.

The bride wore a navy blue suit with a corsage of butterfly roses and lilies of the valley. She was attended by Mrs. E. A. Wagner, and E. A. Wagner, brother of the groom, acted as best man.

Mrs. Wagner spent her early girlhood here, where she attended the Upland Grammar School, later moving to Long Beach with her father and graduating from Long Beach High School. She is a graduate of the College of Pacific at San Jose. Mr. Wagner is a son of Mr. and Mrs. August Wagner, of Medford, Minnesota.

LUNCHEON AT THE SYCAMORES—

Miss Ruth Repine was hostess yesterday at The Sycamores to a few guests whom she entertained at luncheon at one o'clock.

The tables were prettily decorated with bouquets of Chinese Poppies, and covers were marked for Miss Lucille Edwards, Benton Harbor, Michigan; Miss Margaret Green, Fort Collins, Colo.; Miss Dorothy Goff, Claremont; Miss Clara Musch and Miss Joy Waterbury, Ontario; Miss Fern Jewel, Miss Vada Williams and Miss Mary Powell of Pomona.

HADDOW—McQUILLEN WEDDING—

The wedding of Miss Marguerite McQuillen, niece of Mr. and Mrs. P. H. McQuillen, to John Fremont Haddow, Jr., took place in Los Angeles this morning at 11 o'clock. The bride was groomed in the usual bridal white. The couple were unattended and only immediate relatives of the two were in attendance.

John Fremont Haddow, Jr., has lived most of his life in Upland and is a graduate of Chaffey. He is in business in Los Angeles, where he has prepared a home for his bride. Mrs. Haddow has been a frequent visitor at the home of the McQuillens and resided here some months a few years ago. The young people left immediately following the wedding breakfast for a camping trip, after which they will be at home to their friends in Los Angeles.

Those who attended the ceremony from Upland were Mr. and Mrs. J. F. Haddow, Miss Ella Haddow, Mr. and Mrs. P. H. McQuillen and the Misses Theresa and Elizabeth McQuillen.

TO HONOR NATIONAL PRESIDENT OF D. B. E.—

A tea and reception will be given next Saturday, July 28th, from three o'clock till six, at the home of Mrs. A. B. Clark, 227 South Van Ness Avenue, Los Angeles, in honor of Mrs. W. C. Pousette, national president of the D. B. E., and also complimenting Mr. Fisher, the new British consul in Los Angeles.

Many Upland people are planning to attend, and for those who take the Pacific Electric into Los Angeles, the information is given to take the West Sixth car in the city, which stops at Van Ness Avenue.

MR. AND MRS. LOCH ENTERTAIN—

A delightful dinner party was given last Sunday by Mr. and Mrs. James Loch, at their home on Mountain Avenue, when several old-time eastern friends were their guests.

Covers were laid for Colonel L. W. Leonard and Mrs. John Hurd of Pawnee City, Nebraska; Mr. and Mrs. N. E. Leonard and child of Redlands; Mr. and Mrs. Fred Bull, Ontario; Mr. and Mrs. Loch and sons. The guests were all Nebraska residents at one time and spent a very happy day talking over past events.

ORDER OF DE MOLAY ORGANIZED HERE

Making its initial bow publicly, the local chapter of the Order of De Molay for boys announces a public installation of officers Friday evening, July 27, at 8:15 o'clock, to be held in the Masonic Temple of Ontario. This chapter, which represents all the towns of the community, is known as the Old Baldy Chapter.

The Chapter was initiated about a month ago with some thirty-five charter members. The Ontario Lodge of the Royal Arch Masons acted as sponsors and have continually been interested in the progress of the boys.

The De Molay Order, since its inception a few short years ago, has had a remarkable growth, and has done a great work throughout the United States. There are now over 100,000 members in the United States alone, with chapters forming in Europe and other foreign lands.

While the De Molay is not a Masonic order, the Masons are back of it, and are doing all in their power to aid the boys. The Order is open to only sons of Masons or their close kinsmen. Cleaner living, better citizenship, fidelity to comrades and to the ideals of the organization, are some of the basic principles of the order.

Further definition of their ideals will be given at the installation Friday evening. This ceremony is free to the public, to whom the members of the chapter extend a most cordial invitation to attend. The installation will be followed by dancing and cards, tickets for which are being distributed by members of the lodge.

FARM BUREAU FILM AT CHAFFEY TONITE

Twelve reels of rural life showing the activities of the National Farm Bureau Federation throughout the United States and the work of the farm bureau in the state of California will be shown tonight at Chaffey Union High School at 7:30 under the auspices of the San Bernardino local bureau.

It is open to the public without charge, states M. A. Kipf, executive secretary, and the program consists of a comedy introducing Will Rogers, cowboy star, who tells why he joined the bureau; a travel reel in natural colors, which takes the audience through some beautiful scenic spots in America, and farm bureau topics, a news reel of statewide agricultural interest.

The picture will be given on Wednesday, Thursday and Friday evenings at Bloomington, San Bernardino and Redlands, respectively.

ELIMINATION OF THE GRADE CROSSINGS

That a general endorsement is to be given the steps taken toward eliminating dangerous grade crossings on the highways throughout the southern part of the state, is indicated by scores of letters from prominent motorists received at the offices of the Auto Club of Southern California. Chambers of Commerce have already endorsed the movement for immediate action, and other civic organizations throughout the various counties are falling into line, according to club officials.

It is pointed out that more than public sentiment is needed to bring the matter to a crisis in order to prevent further loss of life at grade crossings, and according to a statement just issued from the auto club, this organization will continue to take a leading part in making the death-dealing crossings a feature of the past. Boards of supervisors throughout the counties have received a copy of the resolutions recently passed by the club's board of directors, and action is pending through this part of the state.

VACATIONAL SCHOOL GIVES FINE PROGRAM

The auditorium at the Tenth Street School was filled last Friday afternoon by parents and friends of children who have been attending the Bible Vocational School held there for the last six weeks, and which came to a close on Friday with a delightful program and exhibit of the work done by the pupils.

The program was as follows: Song—Kindergarten Boys Disciple Drill and Twenty-third Psalm—Kindergarten Boys Song—Kindergarten Boys and Girls Bible Memory Drill—Primary Dept. Songs—Primary Dept. The Story of Daniel—Primary Dept. The A. B. C. of the Bible—Song—Martha Lichtl The String of Pearls—

Junior Boys and Girls People were very interested in the work the children had done, which consisted of Bible picture books, color work, a sand table of David and his sheep by the kindergarten department; toys, reed baskets, colored yarn balls and handkerchiefs by the primary department, and bandages, art work, tooth brush racks, reed baskets and wooden toys by the junior pupils. Everything made during the school session has been donated to the Children's Hospital in Los Angeles, and the articles will be sent this week for the enjoyment and use of the sick.

The pupils receiving certificates for perfect attendance are: Kindergarten—Helen Clark, Mary Clark, Buford Crooks, Carl Craig, Belle Davies, Martin, Merton Hill, Esther Kent, Billy Paulin, Eleanor Sommerfeld.

Primary—Eva Bemmer, Douglas Allen, Doris Anderson, Leota Bussey, Janet Davis, Robert Catto, Masaka Fukuda, Doris Harms, Walter Hill, Mona Horner, Martha Lichtl, Ruth Lichtl, Fern Lutz, Pauline McPherson, Ruth Mathews, Billy Robinson, Gertrude Sparks, Gertrude Watts, Helen Weber, Burns Williams, Carl Williams.

Junior—Charlotte Allen, Alice Boyd, Ruth Clark, Ruth Galentine, Wheaton Galentine, Leonard Hibbs, Alta Hiebert, Dorothy Hill, John Jellison, Irene Karr, Anna Lichtl, William Loch, David Maxwell, Iris McNiece, Ruth McPherson, Dorothy Miller, Margaret Morris, Dorothy Sommerfeld, Margaret Stafford, John Watts, Paul Weber, Josephine Woolery, Thomas Yellis.

The enrollment for the session totaled 175, of whom 83 were boys and 92 girls. The average daily attendance was 119, percentage of the average daily attendance was 68.33. Enrollment by churches: Methodist, boys 36, girls 38, total 74; Presbyterian, boys 19, girls 17, total 36; Nazarene, boys 11, girls 10, total 21; Menonite, boys 4, girls 10, total 14; Brethren in Christ, boys 9, girls 4, total 13; Baptist, boys 3, girls 4, total 7; Catholic, boys 1, girls 4, total 5; Latter Day Saints, boys 1, girls 2, total 3; Christian, boys 1, girls 2, total 3; Episcopalian, boys 1, girls 1, total 2; Congregationalist, boys 0, girls 1, total 1; no affiliation, boys 5, girls 2, total 7.

ONTARIO LAUNDRY HAS 80 MILE CALL

F. W. Northcott, manager of the Ontario Laundry, states that they are turning out a very large volume of business not only in Ontario, Upland and vicinity, but as far as Brawley, Hollywood, Glendale and Yuma, where they have regular weekly customers who are so pleased with the work of this institution that they send their work via parcel post. He also received a wire a short time ago from eighty miles away, the party wanting to know if the laundry would take their weekly work. The trip is made weekly to this point and the amount of business done amounts into good figures for the laundry.

Mr. Northcott is very enthusiastic in his line and nothing is too much trouble when it is a benefit to better the institution which he represents.

POMONA VALLEY TENNIS TOURNAMENT

Starting Wednesday, August 1, a tennis tournament will be held which is to decide the men's singles championship of the valley. There will be no age restriction, so the tournament is sure of being lively. The semi-finals and finals are to be played on the Pomona College courts.

All wishing to enter send their name, address, telephone number and entrance fee of 25 cents to Josiah Poeten, Boys' Work Secretary, Claremont. All names must be in the hands of the committee by Monday night, July 30th. It is probable that a cup will be given, making the competition the more keen. Anyone desiring more information get in touch with the committee (Josiah Poeten, Allan Taylor, James Oliver) by calling Mr. Poeten's office, Claremont. The tournament is under the management of the Claremont Tennis Club, and is open to players from Upland, Chino, Pomona, San Dimas, La Verne, Ontario and Claremont.

NEW YORK STORE—Ontario

LOCAL OPENINGS

Miss Laura Sexauer, who will be remembered by many people here, will arrive in Upland the first week in August from the Hawaiian Islands to visit friends. Miss Sexauer and her mother and sister have been staying in the islands for some weeks, but sailed from Honolulu on July 18th for California.

Mrs. G. W. Cassell leaves tomorrow for a six-weeks' trip to her home in Wyoming, stopping on route at Denver and Cheyenne to visit friends.

Several Upland people are finding out the delights of Hillcrest Inn at San Dimas when on motor trips. Delicious luncheons are served, and it's a wonderful place for dinner dances and parties. Reservations may be made by phoning 1766, San Dimas.

Fred Anderson, Jr., is now with the Union Pacific Railway at Yermo, where he is call boy for the train crews at that division. It is night work, and Yermo is a pretty warm place at this time of year, but "Fritz" likes both the place and the job and enjoys being on the desert.

Mr. and Mrs. Richard Elliott and small son spent the week-end with Mrs. Elliott's parents, Mr. and Mrs. T. E. Ketcheson, on West Tenth Street. Mrs. Elliott is recovering from a serious illness and making great improvement, to the satisfaction of her friends.

We have some early fall arrivals in Silks—Brocade, for Wrap Coats and Jaquettes—Printed Georgettes in rainbow hues, and the best looking Flat Crepe with Moire Diamonds in Black. It is our pleasure to show merchandise; give us that pleasure. —Reynolds & Harnish Dry Goods Co. 20-t-1

Mr. and Mrs. Lyman Clark and family, of Washington Boulevard, are enjoying a week's vacation in San Antonio Canyon.

Mrs. T. MacAdam writes to friends here that while enjoying life in Canada she misses the fruit of California very much. On their ranch on West Ninth street they had plenty of berries as well as oranges, and fruit in Canada is not only scarce but high. Mr. MacAdam is not well, but his wife hopes to send better news of him in her next letter.

Mrs. William Brown left last week for Green Bay, Wisconsin, to visit her daughter, Mrs. B. C. Schilling, and family. Mrs. Brown writes that in crossing the desert in New Mexico the thermometer was 112 in the train and the passengers were very thankful when cooler quarters were reached.

C. V. Barr, president of the First National Bank, and Mrs. Barr, leave on Friday next by motor for Coronado, where they will spend the next ten days or so at the hotel.

Hiram Bauchman, former well-known night watchman in the City of Upland, who has been seriously ill for the past week, is greatly improved, much to the gratification of "His" many friends here.

Miss Ruth Genung of Piedmont is the guest this week of her uncle and aunt, Mr. and Mrs. S. S. Genung, at their Mountain Avenue home.

Mr. and Mrs. D. C. Morrison and son, Kenneth, of 554 East Ninth Street, are spending this week at Redondo Beach.

Mr. and Mrs. Vernon Handyside of Oakland, who are on a motor trip through Southern California, were guests on Sunday of Torrens Pratt of Ontario and Mr. and Mrs. R. N. Leahy of Upland. Mr. Handyside lived in Ontario many years ago, but has not been down south since 1915.

Mr. and Mrs. Howard Graves motored to Laguna on Saturday and later to Serra Beach below Capistrano, where they spent the night, returning to Upland on Sunday evening after a delightful trip, weather and roads being perfect.

Miss Ella Haddow returned to Los Angeles Tuesday in time to attend her brother's wedding, after spending the week-end with her parents here. Miss Haddow is now a regularly registered nurse, she having taken the state examination in June and received her R.N. last Friday.

Mrs. M. V. B. Bradford returned Sunday from a week's visit spent with her daughter, Mrs. R. S. Frownfelter at Lomita.

Our complete line of Volles at reduced prices.—Reynolds & Harnish Dry Goods Co. 20-t-1

Mr. and Mrs. C. Thudium returned on Sunday from a very pleasant visit to Lake Arrowhead, where they were guests of their daughter and son-in-law, Mr. and Mrs. H. B. Hamilton, at Blue Jay Camp.

W. C. Cline recently purchased an Oakland car from C. M. Sikes, which he is getting great pleasure from driving.

Mrs. E. P. Fuller returned on Saturday from a visit to the northern part of the state, where she visited Mount Lassen and saw the volcano spitting fire. On Sunday evening an earthquake struck Upland and surrounding country, and Mrs. Fuller felt that she was certainly experiencing all the thrills that Mother Nature could provide on short notice. Mrs. Fuller is attending the nurses' convention being held for the next two weeks in connection with the Southern Branch of the University of California in Los Angeles.

We now have the Genuine Blue-bell Chevrolet in the standard Grey for cannery costumes.—Reynolds & Harnish Dry Goods Co. 20-t-1

Professor Fred Bryan leaves tomorrow for Central California, where he will spend the next few months.

Mr. and Mrs. H. E. Davis have as their guest for the next few weeks the former's mother and sister, Mrs. S. R. Davis and Miss Elsie Davis of Los Angeles.

Mr. and Mrs. Charles V. Barr and Mr. and Mrs. Frank Van Natta motored to Balboa Beach on Sunday, where they were guests for the day of Mr. and Mrs. C. E. Corry.

Ray Gabbert, editor of the Riverside Enterprise, was a guest here last night of Harlow S. Wilson, cashier of the First National Bank.

Miami Kerchiefs for Sport Dresses and Over-blouses: something just a little different to finish the summer.—Reynolds & Harnish Dry Goods Co. 20-t-1

SANTA FE REDS TRIM ALTA LOMA

Inability to hit Alvarado, pitching for the Santa Fe Reds, for more than three safeties, and three fast double plays when they were threatening to score, were the main factors in the defeat of Alta Loma by the Santa Fe team last Sunday. Brumfield held his opponents to seven hits, but gave three bases on balls besides hitting one man. Both teams played errorless ball in the field.

The box score:
Alta Loma— AB. R. H. PO. A. E.

Summary—Two-base hit, H. Bonillas; bases on balls, off Brumfield 3, off Alvarado 2; struck out, by Brumfield 6, by Alvarado 7; left on bases, Alta Loma 4, Reds 6; double plays, Smith to Irvine to Fleming; Beckley to Irvin, Payne to Irvin to Fleming; hit by pitcher, by Brumfield, Payne; umpires, Layton and Harvey.

CLUB DISCUSSES MEXICAN PROBLEM

Business of the East End Improvement Club at their meeting last Friday night took the form of a discussion of the Mexican problem in that part of the town and whether it would be impossible to have a regular Mexican quarter established here. No definite plans were formulated, and the discussion was shelved to be brought up again at the next meeting.

President George L. Winter, commented on the petition recently circulated asking for annexation to the city of Upland, and the petition will be presented to the City Council in the near future.

Mr. and Mrs. George T. Miller were hosts to the club members and following the business session a jolly social hour was enjoyed, the young people of the club putting on a clever little play, which was quite entertaining. Thirty-five members were present, and it was decided to hold the meetings on Friday during the band concert season, so the next one will be on the third Friday in August.

ASK SPORTSMEN TO PROTECT DOVES

Appeal to the sportsmen of this district to aid in preventing the slaying of doves before the official opening of the season on Sept. 1, was made Monday by Fish and Game Commissioner W. C. Malone.

Doves are nesting at the present time, Malone said, and to kill birds at this time will mean that the young ones will starve. While no reports of parties shooting doves have been made, it is believed that the birds are being slain in small numbers in some districts of the county.

"I would appreciate it and I know every true sportsman would appreciate it if at any time a hunter is seen killing doves before the opening of the season the matter would be reported to me at the sheriff's office here. If I am not at the office the information can be left for me there. If the guilty party's name is unknown, an effort should be made to secure his automobile license.

"This is a matter of interest to the sportsmen of the valley and should be given attention. The dove season this year promises to be the best in many years, but the premature killing of the birds will mean poor seasons in coming years."

Deer season will open Sept. 15, Malone said, and the outlook for a good year in this line of sport is good. Many deer have already been seen in the lower mountains.

HUNGERFORD SAILS IN HONOLULU RACE

Starting at noon on Saturday from Santa Barbara, six yachts of the Santa Barbara Yacht Club left on a race to Honolulu. Those in the race are Poinsettia, yawl; Mariner, schooner; Idalia, schooner; Spindrift, ketch; Diablo, schooner; Viking IV., schooner.

On the latter boat is Beecher Hungerford of this city, and the following description of his boat will be of interest to those who are keenly watching the race. Viking IV. is owned and skippered by Admiral Albert Solland of the Pacific Coast Yachting Association. It has a sail area of 1,760 square feet and measures 54 feet 10 inches in length. Crew of Otto Wilder, First Mate Claude Putman, Second Mate Ed Bradbury, Third Mate Beecher Hungerford, and two paid hands.

The existing record of the race is 11 days and 13 hours, won in 1908 by the Lurline, skippered by Captain Sinclair. The official distance is 2,190 miles.

The Viking IV. drew the biggest handicap and will beat out the Poinsettia if she finishes the 2,190 miles within 60 hours, 20 minutes and 4 seconds of the yawl. That is a handicap of two and a half days, and opinion has it that Admiral Solland stands an even chance of victory with his Viking, which is the smallest boat entered for the race.

TO SET HIGH SCHOOL TAX MISSION DIST.

To determine how much the Mission school district shall be taxed for the Redlands High School, the Board of Supervisors will hold a hearing at a meeting to be held on August 6.

Mission was one of the few elementary school districts not annexed to a high school district two years ago. By petition, the Redlands High School authorities a number of months ago sought to force annexation of Mission, but under the section of the law used by Redlands the Mission residents had the right to file a protest that legally killed the petition. By the terms of the law, Mission is required to pay Redlands a per capita tax on the number of students which go to the high school.

The law very plainly figures out how this tax is computed, but the supervisors are required to conduct a hearing on the matter. After deducting the state and county funds which go to the Redlands High School, the cost per pupil is then figured, and Mission must pay this sum on each boy and girl attending the school. This will amount to about \$5.20.

Cucamonga Residents Vote School Tax

Residents of the Central district, in the Cucamonga section, have voted a special tax levy of \$3,500 for the operation of the school.

Petition to cut the width of Jeffries Place, in the Gus Knight Homestead Tract at Big Bear Valley from 60 to 40 feet by taking ten feet off each side of the highway, was granted.

Franchise was granted the Pacific Electric to cross Orange Avenue, in the Cucamonga section, with tracks. The following foremen's permits for fumigating or spraying were issued: W. P. Cridan, John E. Noel, Jess M. Mathers, C. R. Pool, H. O. Green, Max Puguay, Z. E. Hair, E. R. Hair. Operator's license was issued to the Cucamonga Growers' Fumigation and Supply Company.

Maps of subdivisions were approved as follows: Green Valley Park No. 2; Glen Martin Subdivision No. 1; Clria Tract, near Colton; Turnbull Subdivision, on Base Line near Harlem Springs; Forest Acres, Big Bear Valley.

\$100 TO FURNISH MOUNTAIN CABIN

Everyone interested in the furtherance of the work among the girls in the Chaffey district will be most interested to learn of the donation of one hundred dollars which has been given to the organization for the purpose of starting a fund to provide sleeping quarters in the girls' cabin in Barrett's Canyon.

Mrs. Mayne Nichols Watenpaugh of Ontario entered the subscription contest of the San Bernardino Sun, with the object of giving everything won to the girls' work. She took third place in the contest and presented a check for \$100 as a result of her industry during the contest. This will materially aid the fund, and it is hoped to soon have comfortable bunks and bedding in the girls' cabin at Barrett's.

In summer most of the girls hold their "coming-out" parties at the beaches.

AMERICANS FLOCKED TO B. C. TO CELEBRATE GLORIOUS FOURTH

The following clipping taken from a Vancouver, B.C., newspaper, was received in a letter by an Upland resident from a friend in the Canadian city, and according to it the "wet" condition of British Columbia is a great drawing card to American tourists. The article was published the day previous to the 4th of July, and the Canadian holiday spoken of is Dominion Day, the anniversary of the granting of self-government to Canada, and a national holiday across the line.

"Vancouver has been invaded. Thousands of men and women from across the international border have swarmed over to see British Columbia and enjoy our hospitality over the holiday period.

"These invaders have been bombarding the citizens with metal—great silver dollars. Nearly every business man is finding his cash register heavy with 'cartwheels,' testifying to the value of the tourist trade.

"The cars are continuing in a long procession from the south, with flags—the Union Jack and Stars and Stripes—flying from radiators and hoods.

The customs officers at Douglas and other border points were busy all morning checking holiday parties from the United States, who have come across to spend the 'Glorious Fourth,' while hundreds of others came over on Sunday to help Canadians celebrate Dominion Day.

Many Automobiles

"The hotels of the city are feeling the effects of the large influx of tourists. 'Every block in town has its quota of parked cars from Washington, Oregon and California, with vehicles from the former state predominating. There were just under fifty American cars parked in the area in front of the Hotel Vancouver and in the single block between Georgia street and Dunsmuir on Granville.

"Since last Wednesday the rush of automobile tourists has been the heaviest in the history of the Vancouver Automobile Club, according to Mr. Stephen Golder, secretary of that body. On one day no fewer than 158 car owners from south of the line visited the new club quarters in search of information. On no day during the past week has the number of enquirers fallen below 100.

"Every train and boat arriving this morning brought additional visitors and motor cars are coming in a steady stream. It is confidently expected that July 4 this year will set a new high record for tourist traffic into Vancouver."

DONOGHUE WINS GOLDEN SPURS, THRICE A DERBY VICTOR—PAPYRUS FIRST

New photo—taken as they were "training together" for the great race, of Jockey Steve Donoghue, England's greatest rider, on "Papyrus"—the combination that won the annual Derby Stakes, on Epsom Downs, on June 6, Time 2:38. This third consecutive Derby victory gives the little Lancashire man the right to wear the Golden Spurs, which the Jockey Club long ago offered for this achievement—he is the FIRST man to acquire the honor in the century and a half since the Derby Stakes race was instituted. Also, he is only the third man in history to have piloted a total of five Derby winners, the others being James Robinson, nearly a century ago, and Fred Archer, king of his day, who won five times between 1877 and '86. Papyrus, owned by Barney Irish, a tenant farmer of Northamptonshire, is a son of the estimated that some twenty-five millions of dollars changed hands on this race.

ONTARIO

Two Injured

Mrs. H. H. Webster, wife of a prominent Ontario dairyman, was seriously injured at shortly after noon Saturday and her husband sustained severe hurts when the motor car in which they were driving south on Euclid Avenue crashed head-on into a large pepper tree in the efforts of Mr. Webster, at the steering wheel, to avoid collision with a machine driven by Mark Berkman, a boy residing at 404 East Clinton Street.

Both Mr. and Mrs. Webster were hurled through the windshield, and the latter, in an unconscious condition, was picked up and carried into the house of M. J. Myers, 801 South Euclid Avenue, where Dr. J. H. Titus, hastily summoned, was obliged to perform an emergency operation before she could be removed to her home in Walker Avenue.

Mrs. Webster sustained deep cuts about the scalp and a slight concussion of the brain.

Mr. Webster's cheek was completely cut through and he sustained the loss of several teeth. The young children of the Websters, who occupied the rear seat of the motor car were thrown out, but not badly hurt. The car was wrecked.

Young Berkman was not injured, but suffered severely from shock. Just before the crash both machines are reported by eye-witnesses to have been traveling south on Euclid with the Berkman car ahead. The accident is said to have resulted when Mr. Webster attempted to pass young Berkman in the intersection just as the latter turned east into California Street.

No Peach Run

That the big Ontario plant of the Golden State Canneries Company, Main Street and Sultana Avenue, which has just closed a run on apricots in which some 15,000 cases were turned out, will not open on the peach run in the near future, but may handle some peaches a little later in the season, was the announcement of heads of the local

house Saturday.

Rumors circulated to the effect that the company was bankrupt and would operate none of its plants this year were denied, and inability to secure a sufficient supply of high quality fruit is given as the cause of the shutdown. It is said there is but a 45 per cent peach crop at best and only a small portion of this is suitable for canning.

It was stated Saturday that the Hemet plant of the company would be operated as usual and that it was probable that the Pomona plant would operate at least part time. It was announced Friday that the Cucamonga plant of the company would not run this season on account of the fruit shortage.

Local canners express the hope that by another year growers will have been educated to the necessity of more drastic thinning and the production of larger and better quality fruit.

Nearly Starved

Locked in the hot city jail for nearly 20 hours without food, two youthful hoboes were reported in a state of near collapse when released late Saturday afternoon, after their cries for help had attracted the attention of Charles E. Harper, proprietor of the City Transfer Company, who chanced to be passing the jail.

Inadvertent misplacing of a slip of paper noting their incarceration by a member of the night police force, who had permitted the boys to enter the jail that they might have a place to sleep, was given as the cause of their unpleasant experience.

The boys declared that they had been calling for help for several hours and had almost decided that they were to be left to starve when Mr. Harper responded to their cries and assured them that he would see that they were fed. The extreme heat of the low-roofed jail added to their discomfort.

They say women can't keep a secret. But how quiet women can be when they hear the neighbors telling wonderful things about their husbands.

EMINENT AUTHORITY
SAYS CITRUS FRUITS
ARE A NECESSITY

"Citrus fruit should no longer be regarded as a luxury. It is a necessity. Through its liberal use the average life may be generously extended. Abstinence from its use can only be practiced with peril to those who fail to consume it and consequent injury to the whole people of the United States."

"And the strange thing about this is that it is impossible to 'over eat' oranges, grapefruit and other citrus fruits. Neither will liberal consumption of these viands impair the appetite for cereal and meat foods. On the contrary, the more oranges, grapefruit, and lemons one eats, the greater will be the desire for bread, beef, mutton, pork and edibles of all standard varieties."

These statements are made on no less an authority than United States Senator Royal S. Copeland, of New York, the famous former Health Commissioner for New York City.

Senator Copeland says that grapefruit and oranges are splendid tonics and the finest kind of human scavengers. They clear the decks of the stomach for action and make possible the functioning of organs which, without their assistance, would become and remain inactive and dormant. They stimulate and regulate, giving vast assistance to bread and other substances which are honestly striving to add strength to the human system.

Dr. Copeland probably had in mind the species of orange grown in Upland and contiguous sections of the well watered areas of Southern California when he said:

"I believe there is no more refreshing health-giving drink than the juice of a ripe orange. Its peculiar flavor and acid tang seems to impart a feeling of restfulness and contentment after a day of arduous labor, whether in the office or the home."

"Oranges should be on the table of every home; they should never be denied to the children. They should be a part of at least one meal a day; and I can think of no better use than their incorporation in cakes, salads and beverages."

Senator Copeland finds in the orange a diet for all people from the infant who has just come into the world to the centenarian who is getting ready to leave it. He says it is rich in vitamins, without which a human body would soon cease to have vitality.

"The orange is one of the richest sources of vitamins, and is the most wholesome and useful of all sub-acid fruits," he says.

"In 1920," continued Senator Copeland, "the United States produced 27,200,000 boxes of oranges and approximately two-thirds of this tremendous total came from California."

But while calling this a "tremendous" total, the famous health authority does not believe the production of oranges in California and other citrus fruit sections is more than in a robust infancy. The general health of the people would be greatly improved and the consumption of other foods much augmented if the figures quoted above were increased two or even threefold.

Discussing this matter with the writer, Senator Copeland said: "Oranges, grapefruit, lemons and limes are becoming increasingly and deservedly popular not alone in the United States but throughout the world."

Talking of the use that can be made of citrus fruit in toning up the system and preparing the body for the reception of other nutritive foods,

UPLAND, CAL.

Senator Copeland makes this somewhat novel but pathologically accurate statement:

"You get up with a bad taste in your mouth and no appetite for food. Take the juice of a well ripened grapefruit or orange and the day is really begun. Nothing adds more to the relish of a breakfast."

This means, of course, that the system is made ready for the reception of wheat cakes, corn muffins, ham or bacon and eggs and other foods. So that by the increased consumption of citrus fruits the means are provided through which the American people may eat the surplus wheat, potatoes, vegetables and meat products annually produced by the farmers in this country.

Senator Copeland believes every farmer, every manufacturer, every builder, every railway man and every housewife should be champions of citrus fruit consumption and therefore advocates for the expansion of that beneficent and health promoting enterprise.

Adopting the line of reasoning suggested by Senator Copeland, Mr. Manchester finds in the enlarged consumption of citrus fruits a means through which industry in the United States may be magnificently expanded. He also finds hope for languishing agriculture.

"Expanding the appetite for other wholesome foods by increasing the consumption of citrus fruits may be a novel idea; but nevertheless a correct assumption," said Mr. Manchester. "There is no flaw in such reasoning. The conclusions of the physician senator from New York are faultless."

Mr. Manchester said if the recommendations of Senator Copeland are generally adopted—and they will be when the people better understand the food value of citrus fruits—the consumption of food will be enormously increased; and the increase will promote rather than injure health. To increase the consumption of wheat, potatoes, corn, vegetables, beef, pork or mutton without augmenting the use of citrus fruits would be to abbreviate instead of extend the average span of human life.

"But what the application of the theories of the famous New Yorker would mean to industry cannot be estimated," said Mr. Manchester. "Imagine, if you can, what it would mean to double the consumption of oranges based on the sale of 1920. Every industry in the United States would be affected."

"How much additional lumber would be needed to make twenty-seven million boxes? We would have to either increase the capacity of every saw mill or build scores of additional plants. We would have to employ veritable armies of lumberjacks to take care of the demands for timber which that increased consumption of California's famous product would make necessary."

"Literally hundreds of tons of additional wire and acres of tin would be needed to secure the boxes and an almost incalculable number of barrels of nails, tacks and such like would be required in this additional service. Ink by the hundreds of gallons and paint in immense quantities would be among the supplies that the shippers must have to meet this additional demand. Twine, by the thousands of yards, sacks and paper by the scores of tons would be among the indispensable articles that would be required, if the suggestion of Senator Copeland is to be made practicable."

Mr. Manchester also pointed out that railway rolling stock would have to be augmented in order to meet the increased demand of the American people for citrus fruit. New lines of steamers sailing from San Diego or Los Angeles through the Panama Canal to the East and to European ports would necessarily be established.

"Such an augmentation of the citrus fruit industry in California would increase very materially the demand for automobiles, auto trucks, locomotives and other means of transit," said Mr. Manchester. "Thus would all the plants of the East, where these are manufactured, increase their activities and naturally add to the number of their employees."

"With the building of additional railway rolling stock of all varieties made necessary through this increased consumption of citrus fruits would come a largely increased demand for mechanics—large additions to office forces—the employment of an increased army of stenographers, bookkeepers, and other employees necessary in industrial organizations."

"This new army of employees made necessary by the increased consumption of what Senator Copeland regards as health necessities, must live somewhere. Therefore home-building would be among the most strenuous of activities in many of our cities. Bricklayers, carpenters, plumbers, painters, paperhangers, furniture makers, electricians, designers, janitors, serving maids and

many other professions who serve useful purposes in our scheme of industry and civilization, would find employment; and all because the people would be sufficiently careful of their own health as to double their present consumption of citrus fruits."

Continuing in this interesting vein, Mr. Manchester remarked that the oil industry would be among the first to feel favorable effects of a large increase in the consumption of citrus fruits. It has frequently been stated that there is an overproduction of crude oil in California and hence more gasoline produced than is sufficient to serve the needs of her people.

"Supposing we are compelled to market double the quantity of citrus fruits now consumed by the people of the United States," continued Mr. Manchester. "Will it not be necessary for us to produce a vastly increased supply of crude oil? Every new automobile, freight car, steamship and piece of machinery of every kind needed to care for the increased tonnage of orange, grapefruit and other citrus fruits will demand their necessary supplies of oil."

"Thus would our surplus be absorbed and we would be compelled to drill additional wells and seek new sources of supplies from undeveloped oil fields. That these undeveloped sources do exist in California, geologists who have an established standing tell us there is no room for doubt."

United States Senator Arthur Capner of Kansas, the state in which Mr. Manchester was born, is a personal friend of Senator Copeland. He is earnestly seeking a solution of the problem of how the wheat farmers of the United States may be able to collect rewards for their service to society, which will pay them the cost of production and leave a reasonable margin for dividends on their investment of capital and labor.

The Kansas senator is a sincere friend of the Californian fruit grower. He voted for every demand during the life of the Sixty-seventh Congress and he would unquestionably welcome a campaign for the increased consumption of citrus fruit; more especially as such consumption, according to the very best available medical testimony, would result in a very much larger use of other products of the farm.

Recognizing the fact that a well-balanced human ration with citrus fruit omitted cannot be obtained, many of the leading hotels and restaurant managers of New York, Washington, Boston, Chicago, Cleveland, Philadelphia and other large cities are preparing to reduce the prices of oranges and grapefruit. Some of them have already done so and are making an advertising specialty of that fact.

Some of the larger establishments keep a physician on their staff, whose duty it is to advise the hotel chefs as to the wholesomeness of the food served to their patrons. These attached physicians are apparently in unanimous accord with Senator Copeland on the subject of citrus fruit. They are not slow to advise the managers to make oranges and grapefruit attractive to their guests by so adjusting prices as to tempt them to consume more of the luscious fruit than they would otherwise feel inclined to do.

"Yes, we are going to try to increase the consumption of oranges and grapefruit by revising our prices," the manager of one of the largest hotels in Washington told Mr. Manchester. "First we are offering club breakfasts at a tempting cost of fare is sliced oranges or half a grapefruit. Our house physician has advised us that we would help preserve the health of our guests and we know that we will likewise aid the citrus fruit industry of California and other citrus states."

WHY HE QUIT

"That's Bill Fligh, the aviator. He's the guy that used to write ads in the sky in smoke."

MAMMOTH PICNIC RALLY
OF NEBRASKANS AUG. 4

All who ever lived in Nebraska are called to meet under the auspices of the Nebraska Association of Southern California for the mammoth summer reunion, all day, Saturday, August 4, in Bixby Park, Long Beach. The officers are suggesting that you come as early as you can and spend the day with friends.

That they will have county registers and headquarters so you can find the old neighbors even with ten thousand present.

They will offer a brief program, opening at 2 o'clock, but the main purpose will be to have a good time.

They want to see all the Nebraskans from all sections of Southern California and all our tourist friends. Bring your baskets well filled and share with friends. Coffee will be served free to all who buy the souvenir badges. Counties or towns may plan picnics at same time.

Each one who learns of this picnic is asked to pass the word along. Further information may be had of President E. H. Hinshaw or of C. H. Parsons, Secretary of the Federation of State Societies, Continental National Bank, Main Street at Ninth, Los Angeles, phone 10261, where the great Nebraska register may be seen at any time.

THE DRAWBACKS OF RELIGION

A colored woman consulted the village lawyer.

"Ah want to divorce mah husband," she said.

"What's the trouble?" asked the lawyer.

"That nigger's done gone and got religion, and we ain't seen a chicken on the table for two weeks."—Progressive Grocer.

THE EVIDENCE

"Bridget, has Johnnie come home from school yet?"

"Yees, sir."

"Have you seen him?"

"No, sir."

"Then how do you know he's home?"

"Cause the cat's hidden under the stove, sir."

Notice of Election
To Vote School Tax

Notice is hereby given that an election for the purpose of voting a special school tax will be held on Wednesday, August 1, 1923, at the Camp Baldy School House, San Antonio Canyon, between the hours of twelve noon and five p.m.

By Order of the Board of Trustees, Camp Baldy School District.

Dated July 10th, 1923. 16-1-6

SUMMONS

In the Justice's Court
OF UPLAND TOWNSHIP, COUNTY OF
SAN BERNARDINO, STATE OF
CALIFORNIA

GEO. R. CRANE, Justice
G. A. HANSON FRUIT CO., Plaintiff
vs.
MRS. O. H. HAND, Defendant.

The People of the State of California send greeting to MRS. O. H. HAND, Defendant.

You are hereby directed to appear in an action brought against you by the above named Plaintiff in the Justice's Court of Upland Township, San Bernardino County, State of California, and to answer before the Justice at his office, Second Avenue, in said township, the complaint filed herein, within five days (exclusive of the day of service) after the service on you of this summons, if served within the township in which the action is brought; or if, served out of said Township but within said County, within ten days; or within twenty days if served elsewhere. And you are hereby notified that unless you so appear and answer said complaint, as above required, said Plaintiff will cause your default to be entered and take judgment for any money or damages demanded in the complaint as arising upon contract, or will apply to the court for the relief demanded in the complaint, together with the costs of suit.

Given under my hand this 28th day of June, 1923.

GEO. R. CRANE,
Justice of the Peace, Upland Township, County of San Bernardino, State of California.

A. W. BURT,
Attorney for Plaintiff.

A Word About Men's and Boys' Clothing

During this sale we are going to give you a chance to buy right "now" your fall or winter suit at a price that will not be possible again this year. We do not care what anyone tells you to the contrary, good clothing will not be as cheap this fall as now. There's always a lot of junk clothing to be had and made to sell at a price—but when you want REAL clothes you must get them of dealers who handle nothing but well-known brands. Every suit in our store is new and up-to-date in models—you can't buy better fitting nor better made clothing than the

"SINCERITY LINE"

If you are going to buy any clothing any ways soon—take a tip from us and "buy now"—no junk clothing but real clothes for the man who cares.

FARRAND HEADS THE STATE AGRI. COM.

George E. Farrand of Los Angeles, generally conceded to be the foremost authority on the fundamentals of the law concerning co-operative marketing of agricultural products, has been unanimously chosen as president of the Legislative Agricultural Committee of California. Mr. Farrand succeeds Charles C. Teague of Santa Paula, who had served in that capacity since the inception of the organization, and who felt that he could no longer continue to devote as much time as the work required.

Because of Mr. Farrand's position as general counsel for most of the larger of the producers' organizations which market their fruit co-operatively, his choice is particularly fortunate and the agricultural interests as a whole will benefit because of his intimate acquaintance with the growers' needs.

Other officers elected are as follows: Vice-president, C. P. Earley, general manager of the Mutual Orange Distributors of Redlands, and who succeeds himself, and secretary, R. N. Wilson of Sacramento. Mr. Wilson also succeeds himself.

The Agricultural Legislative Committee is made up of representatives of 35 commodity producers' organizations in California. These organizations represent a membership of 65,000 growers and producers, whose annual output is conservatively valued at a quarter of a billion dollars.

The Agricultural Legislative Committee has accomplished much in the interest of California agriculture during its comparatively brief existence. It has held a great many sessions, has studied the bills which have been introduced at the recent sessions of the general assembly, has assisted in an advisory capacity in securing legislation which would be helpful to the grower and to the state of California and has been successful in securing adverse action on many measures which would have been exceedingly harmful to both the grower and to public welfare.

A fair position has been taken on all matters. No attempt has been made to unduly advance the claims of agriculture to the disadvantage of others. It has established itself in the confidence of the legislators and the governor, so that its recommendations have often been solicited and accepted. By the maintenance of a fair attitude, it has been successful in accomplishing much. Credit for much of this is due to the skillful and diplomatic handling of difficult situations by the secretary, R. N. Wilson, who as a farm advisor before taking up this work, was very familiar with the needs of the grower.

Mr. Teague and Mr. Wilson worked in perfect harmony and the same relationship will exist between the new president, Mr. Farrand, and the secretary. Mr. Farrand has been a member of the executive committee of the legislative committee for a considerable length of time and is entirely familiar with the purposes and aims of the committee. Mr. Farrand's experience as general counsel for the California Fruit Growers' Exchange, Fruit Growers' Supply Co., California Walnut Growers' Association and in his advisory capacity with the Sun-Maid Raisin Growers, coupled with his qualification as director of the First National Bank of Los Angeles, makes his choice especially fortunate.

Among the objects of the Agricultural Legislative Committee, as taken from the bylaws of the organization, are the following:

To provide a permanent organization which will initiate and encourage legislation to foster and protect the horticultural and agricultural interests of the state; to consider legislation affecting the state, county and local governments that are charged with the protection and development of the horticultural and agricultural interests, and to study their administration and their inter-relationships with the view to increasing value to the state.

UPLAND EXPERIENCES EARTHQUAKE SUNDAY

(Continued from Page 1)

ing his Ford late Sunday evening. At first the contrivance failed to show any signs of life, but when she started the thunders roared and the earth rocked.

Nightwatchman Haugs was taking a few minutes' rest Sunday night. He sat in a chair in front of police headquarters, the chair tipped back against an ornamental light post. As Mr. Haugs was gazing at the sky overhead, a flash of light shot across the sky, there was a resounding crack and it appeared to the nightwatchman that the ornamental light post came down and hit him on the head while the earth attacked him from the rear. When things stood still again the nightwatchman was in the middle of the street.

AMERICAN LEGION STAGE MEMBERSHIP CAMPAIGN

The recent visit of National Adjutant Bolles has stimulated the statewide membership campaign. The posts are rushing to get in their membership prior to the opening of the state convention because the Department Adjutant's books will close July 27th, thirty days prior to the convention. The basis on which the posts are represented depends upon the number of paid-up members. It is, therefore, of vital interest to each individual member and each post to secure as many members as possible for their organization before the termination of the drive.

Gilroy Post won the Commander's Cup with an increase of 500 per cent over last year's total membership. Dinuba Post has already gone over her 100 per cent and has many more members than the number that went into the service from that city. Only 252 men entered the service, while there are now 275 paid-up members, according to state headquarters records. The Arthur L. Peterson Post No. 27, of Long Beach, has practically doubled its membership over last year.

The total number of members brought into the department since the opening of the intensive membership drive is over 2,000. Adjutant Bolles expressed himself as being well pleased with the action of the Department of California during his recent visit to San Francisco.

LEARNING BY DEGREES

Foreman: "Yes, I'll give ye a job sweepin' an' keepin' the place clean."

"But I'm a college graduate."

"Well, then, maybe ye better start on somethin' simpler."—Life (New York).

MODERN VERSION

"Money makes the mare go," quoted Mrs. Grouch.

"Yes, and a motor car makes the money go," growled her husband.

ONTARIO

Move and Enlarge Church

Work of moving the edifice of Grace Methodist Church from Lemon Avenue and Nevada Street to a much more desirable site at the northwest corner of Euclid Avenue and California Street was under way today and a permit has been issued by the city building department for alterations and additions to the structure at a cost of \$1,200.00.

So rapid has been the growth of the society that the enlargement and improvement of the church building became a necessity. It is to be fitted with a commodious basement, with social hall, dining room and kitchen facilities.

The present Sunday school room has become entirely inadequate so rapid has been the growth of that department and the improvements contemplated call for an addition to that room.

The Rev. S. W. Carnes is pastor of Grace Church and under his leadership the society has made rapid growth.

Establishing New Lofts

Ray R. Delhauer, head of the Housing Pigeon Department of the United States Army, who is making his headquarters at his Ontario home for a period of six months while engaged in work for the department on the west coast, today announced the establishment of new pigeon lofts at Criss Field, San Francisco, and at Rockwell Field, San Diego. Lofts established some time ago at Ross Field, Arcadia, are being improved.

Mr. Delhauer has just returned from a trip to San Francisco, where he addressed the Reserve flying officers and regular officers at Criss Field on the pigeon activities of the army and on the home journey spoke also before the reserve officers' training school at Del Monte and before the National Guard at Camp Richardson near Salinas.

In connection with establishment of the pigeon lofts in California, Mr. Delhauer is conducting a number of trial flights of birds in an effort to build up a strain of dependable long-distance flyers. All birds released on these trial flights have inscriptions such as "Headquarters Ross Field" or "Headquarters Rockwell Field" stamped on the underneath portions of their wings and tails and bear U. S. Army leg bands and Mr. Delhauer has issued a special request that persons finding any of these birds in an exhausted condition or otherwise, communicate with him here in order to aid him in keeping careful records of the work of the birds being tested.

The pigeons which make good on the trial flights will be segregated and an effort made to build up a high-class strain of dependable carriers.

Song Calms Hens

One of the peculiar effects of the earthquake which visited this section late Sunday night was the throwing of chickens and other livestock into near panics.

A. H. Mann, who conducts a chicken ranch at 641 West Nevada Street, declared that his fowls became as alarmed as if someone had been after them with a club and it required more than an hour of effort on his part to quiet them. The rancher finally resorted to singing to the hens and thus quieted them.

Although generally admitted by old-timers to have been the most severe quake to visit this section, the tremor, as far as can be ascertained, did not material damage.

Loose bricks were thrown from tall chimneys on some of the older houses of the city, where the bricks were said to have been lying loose before the shock. At Solano Villa, the West A Street home of Mr. and Mrs. L. A. Stone, some bricks were hurled through the glass of a solar water heater and did some slight damage thus.

Hotels and apartment houses in the downtown section were rapidly emptied of tenants, many of whom in scanty garments remained on the streets for more than an hour after the tremor.

Proceed With Paving Plans

Plans for the proposed paving of Pine Avenue from State to Fourth Street were pushed last night when the city council in adjourned regular session made some improvements in the specifications and adopted the resolution of intention to proceed with the work. August 13, was set as the date for hearing protests.

City Clerk D. B. Wynne was instructed to advertise for bids for the erection of a pump house over City Well No. 3 on East Fourth street.

KING HAAKON VII OF NORWAY VISITS BELGIAN ROYALTY

Official group photo taken at Brussels during the recent visit of King Haakon VII of Norway (left rear) to the King and Queen of Belgium. King Albert, of Belgium, is seen standing at right, rear, between her only daughter, Princess Marie Jose, and her oldest son, Prince Leopold, Duke of Barban, throne heir.

IRISH PRESIDENT MAKES FIRST ELECTION SPEECH

President Cosgrave, of the Irish Free State, making his first speech at an election meeting. Electioneering is going on quietly in Ireland, for there is little fighting since De Valera and his cohorts removed themselves from the political horizon.

A CITY NIAGARA

Youngsters frolicked in the improvised shower set up in front of one of the fire houses in New York City on the lower East Side. This is practically the only relief afforded to the youngster in this sweltering heat and to say that they enjoy it, is putting it mildly.

TWO PIONEERS OF THE ELECTROMOTIVE WORLD BORN IN '47 AND '52

Thomas Alva Edison takes a ride in one of the first electric vehicles, built in 1882 and still running, exhibited at the Electric Truck Show, which recently opened in New York in conjunction with the annual convention of the National Electric Light Association.

GENE BRINGS BACK THE LATEST THING IN BRITISH BOWLERS

Gene Sarazen, American Open Golf Champion, returns to the United States with the same old smile and a new trophy—a solid silver cup emblematic of the Northern professional championship which he won at St. Anne's, Scotland.

Old Dobbin had his faults, but he never had to be towed in.

TURN THE SPOTLIGHT On Our Electrical Department

and you will find that there is a place for SERVICE for both old and new customers.

A first-class electrician does all the REPAIRING and RECHARGING of BATTERIES, and looks after your GENERATOR, IGNITION and STARTER

All work is personally supervised by Bill, "He Knows"

Have It Repaired

Watermans

The Garage on the Avenue
Phone 116-J

IVOR NOVELLO

British composer and music publisher, who will be leading man in "The White Rose." He is the author of "Keep The Home Fires Burning."

FLORENCE VIDOR

Who will play "Mouly" in "The Virginian."

A DEBATABLE QUESTION

Tall, sad man in bathing suit sighed regretfully.

"What's the matter?" asked an acquaintance.

"My first wife was drowned somewhere in this sea."

"But you are married again."

"Yes, but my second wife won't go near the water."
